

Ganesha Moorthy

+91 9629617426 — ganeshamoorthy8681@gmail.com — linkedin.com/in/ganesha-moorthy —

Skills

Languages: HTML, CSS, SCSS, JavaScript, TypeScript, Java, SQL, Jasmine

Technologies & Tools: Angular, Angular Material, SpringBoot, MongoDB, PostgreSQL, Azure, Docker, karma, Ngmocks

Experience

Commvault (Acquired Appranix), Coimbatore

Apr 2024 – Present

Engineer

- Continued to enhance and maintain the product post-acquisition, integrating new features based on the acquiring company's requirements.
- Integrated with back-end APIs to fetch and display dynamic data within the feature.
- **Stacks** Angular, Angular Material, SCSS, Typescript, Jasmine, Ngmocks, RESTful API Integrations, JSON, Git, Gerrit

Appranix, Coimbatore

Sep 2023 – Apr 2024

Programmer Analyst

Focused on Front-End Development

- Collaborated with UX designers to transform prototypes into functional user interface components, enhancing overall user experience.
- Improved application performance by reducing the initial bundle size by 44% through the implementation of standalone Angular components and lazy-loaded modules.
- Created library components based on design requirements, enhancing code reusability by 10%.
- Implemented unit tests and enhancing code quality and reliability while increasing overall code coverage by 30%.

Appranix, Coimbatore

Aug 2022 – Aug 2023

Programmer Analyst Intern

- Gained foundational knowledge in JavaScript, TypeScript, SCSS, Angular, and Angular Material through hands-on projects and training.
- Developed basic applications and web pages to apply learned technologies in real-world scenarios.
- Collaborated with senior developers to enhance understanding of best practices in front-end development.
